

Event Search Quick Start Guide

April 21, 2021

Event Search

Quick Start Guide

Search and Filters

Keyword Search Query

Enter just a couple of keywords or use search operators to combine keywords

Map Filter

Search the whole world or refine the results to only show articles from the map area shown.

Events and Sub-Event Filters

Select one or more Events and Sub-Events to see all matching articles.

Date Filter

Select a single date or a range to filter the articles by their published date

Article Source Types

Select News, Social, or both to filter the results

The screenshot displays the 'EVENTS' search interface. On the left, a sidebar contains search filters: a search bar with 'evacuat*', radio buttons for 'Map Extent' (selected) and 'All Data', 'Saved Queries', 'Select Existing Queries', and a 'SAVE SEARCH' button. Below this are event filters: 'ENABLE ALL EVENT FILTERS', 'Travel (4)', 'Disasters (5)', 'Unrest (7)', 'Conflict (11)', 'Health (1)', 'Crime (15)' (with sub-filters for Drugs, Kidnappings, Shootings, Trafficking, and More Crime), 'Terrorism (0)', and 'Transportation (2)'. At the bottom of the sidebar are 'Date Range' (set to Apr 17 - Apr 19) and 'Sources' (News and Social). The main area shows 'Results' with a list of event cards, each including a title, event type, sentiment, date, and source. On the right, a map of the Middle East and surrounding regions shows red location markers corresponding to the search results. A 'Need Help?' button is visible on the map.

Events on Map

As you search for information, all results appear on the map simultaneously

Events Search

Quick Start Guide

Saved Searches and Search Results

New Search

Clear all queries and filter options and start a new search.

Saved Searches

Create the search you want and save it to stay up to date whenever you want.

The screenshot displays the 'EVENTS' search interface. On the left is a sidebar with navigation options: MY STUFF (Places, Content, Alerts), DASHBOARDS (Watch, Esri ArcGIS), ANALYTICS (Pulse, Hotspots, Events, Influences), and REPORTS (The Daily, Country, Settings, Sign out). The main search area features a 'NEW SEARCH' button, a search bar containing 'evacuat*', and radio buttons for 'Map Extent' (selected) and 'All Data'. Below the search bar is a 'Saved Queries' dropdown menu with options: bangladesh, died, evacuation, flood, myanmar, and news111. Further down are filter categories: Disasters (5), Unrest (7), Conflict (11), Health (1), Crime (15) (with sub-filters for Drugs, Kidnappings, Shootings, Trafficking, and More Crime), Terrorism (0), and Transportation (2). A 'Date Range' section shows 'Apr 17 - Apr 19'. At the bottom, 'Sources' are listed as News (31) and Social (0). The 'Results' pane on the right shows a list of news items with titles, dates, and source links. A map on the far right shows the search area with red location markers.
