

With a few simple settings, Hyperion can be set up to visually map major breaking events, locations experiencing the lowest levels of stability for the day, and areas with high levels of activity that could pose a risk. This view is perfect for an Operations Center tasked with monitoring and assessing regional and global issues.

In 5 min, you have an informative view of the world and can understand where you need to focus.

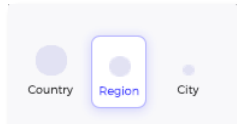

Pulse

Identify Low Regional Stability

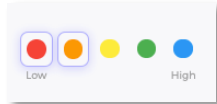

1.) Click *Pulse*.

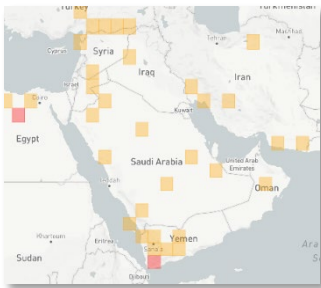

2.) Select the Region scale.

3.) Select Red and Orange *Pulse* levels.

4.) Click the map to view results.

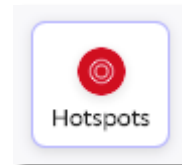

Hotspots

Discover Significant Events

1.) Click *Hotspots*.

2.) Click the icon to display *Hotspots* on the map. Red indicates *Hotspots* are displayed.

3.) Click a *Hotspot* to view results.

Alerts

Create Custom Content

1.) Click *Alerts*.

2.) Select the *Alerts* you want to monitor.

3.) Click a *Hotspot* to view results.
